

Failure: wrong Top1 after reranking

vehicle | scene scene-0905 | actor 3746719d

Shared oracle minFDE = 4.21 m; best-FDE candidate = mode 1

Identical six candidates in every panel. GT selects the oracle mode only for evaluation.
12 original future points; no interpolation or smoothing. Dark bar edge marks predicted Top1.
Purposive example selected after locked evaluation; it does not estimate population benefit.
