

Pedestrian: best mode recovered

pedestrian | scene scene-0276 | actor 7052762c

Shared oracle minFDE = 0.87 m; best-FDE candidate = mode 4

Identical six candidates in every panel. GT selects the oracle mode only for evaluation.
12 original future points; no interpolation or smoothing. Dark bar edge marks predicted Top1.
Purposive example selected after locked evaluation; it does not estimate population benefit.
